It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

MESSAGE.

Gentlemen of the Senate and House of Representatives:

It is a pleasing duty to mark the progress of the noble State of which we are citizens; its increase in population, and growth in material wealth and prosperity, which have been steady and substantial.

The first census of Michigan, as a State, made by the general government, was that of 1840, at which time it was the twenty-third State of the Union in point of population, and contained 212,267 inhabitants.

The second was in 1850, when the State, having gained 185,387, ranked twentieth, and numbered 397,654.

In 1860, with a gain of 351,437, the population numbered 749,113, and the State claimed the sixteenth place.

The fourth census was in 1870, when the population was found to be 1,184,059, an advance of 434,946 in the last decade, making Michigan thirteenth in the rank of States.

The growth of Michigan in material wealth has fully kept pace with the increase of its population. The assessed valuation of real and personal property in 1840 was \$37,833,024.13. The valuations, as equalized by the State Board, were: in 1851, \$120,362,474.35; in 1856, \$137,663,000; in 1861, \$172,055,808.89; in 1866, \$307,965,842.92; and in 1871, \$630,000,000.

The representation of the State in the lower branch of the National Legislature, has advanced as follows: From 1836 to 1843 we had but one member; from 1843 to 1853, three; from 1853 to 1863, four; from 1863 to the present time, six; and under the recent act of Congress, making a new apportionment

according to the ninth census, Michigan is entitled to nine members of the House of Representatives.

The apportionment of the State into Congressional districts is a most important duty. It is required that the districts be composed of contiguous territory, and, as nearly as practicable of the same number of inhabitants. Due regard, however, should be had to the fact that the growth of population will be more rapid and much greater in some of the districts than in others. I bespeak for this duty that careful consideration required by the magnitude of the interests involved.

Pursuant to the provisions of Act No. 67, Session Laws of 1871, the Board of State Building Commissioners prepared plans, and solicited designs and estimates, for a building for the use of the several State departments during the construction of the new Capitol. The building was put under contract to the lowest bidder, has been completed, and is now occupied for the use of the Supreme Court, the State Library, and other purposes for which it was designed. The edifice is convenient in its arrangements and has been completed at a cost of \$30,693.94, exceeding the appropriation in the sum of \$693.94. The entire building, including furnaces and sidewalks, was placed under contract and would have been completed at a cost within the appropriation; but after full consultation with the State officers, it was determined that the security of the vault of the State Treasurer was of such importance as to require a larger expenditure than had been allowed for that purpose. And I recommend an appropriation for the additional amount thus expended.

By the same act it was made the duty of the Board to procure plans, specifications, and estimates for a New Capitol, not to cost over one million of dollars. The Commissioners were authorized to proceed to the erection of a building in accordance with such plans as might be adopted, but with the proviso,

that no contract should be entered into involving an expenditure of more than the one hundred thousand dollars then appropriated; future contracts were prohibited except as appropriations might be made for that purpose.

The duty committed to this Board is one of much importance and of great responsibility. We must have a Capitol, properly arranged for the accommodation and convenient use of the Legislature, the courts, and all other departments of the State government; with a sufficiency of room, not only for present but for future wants.

To secure the construction of an edifice of the most substantial character, in the most economical manner, with due regard to proper architectural proportions and pleasing appearance; with proper provision for suitably lighting and heating, and for necessary ventilation; with a sum of money much less than usually devoted to such a purpose, and yet to have such a Capitol as Michigan should have for a century to come, has required, and will continue to demand until its completion, the most careful attention, much time and labor.

A pamphlet, containing instructions for the guidance of architects, having been prepared, the Board advertised for designs, in the papers of Lansing, Detroit, Chicago, and New York. Twenty were received for consideration. After careful examination, the first premium offered by the Legislature was awarded to Mr. Elijah E. Myers of Springfield, Illinois; the second to P. H. Decker; the third to Edward E. Jenison. Before accepting any, however, the Board took the precaution to employ two experts of large experience in the construction of public buildings, to make careful estimates as to the probable cost of a building constructed in accordance with each of these three, as well as several of the other designs. The architects' estimate for the cost of the Capitol upon the plan adopted is one million seventy thousand three hundred and forty-five dollars.

It is the opinion of the experts who were employed, that it

can be completed for a sum not exceeding eleven hundred thousand dollars, provided the whole work can be advertised and let under one contract.

After careful examination, and consultation with experienced architects and builders, in our own and other States, the Commissioners are of the opinion that a much better building can be obtained and a large amount of money saved by contracting for the whole work at one time. In this opinion I fully concur. The cost of machinery and other appliances necessary for the economical construction of so large and expensive an edifice, would be such as no responsible contractor would be willing to expend for a small portion of the building only. If the whole is offered at one time, experienced and responsible builders at home and from abroad, will compete for the work ; but, if let in sections from year to year, for several years, the advantages of such competition will be lost, bids will be obtained from a small number only, and those of little experience in work of this character and magnitude.

In this connection it will be asked, Can the means be provided by the Legislature at its present session—to be expended within a proper limit of time—without jeopardizing the payment of the funded debt of the State, at its maturity ; or necessary appropriations for our several State institutions ; or without imposing upon the people a heavy burden of taxation ?

Having made careful estimates of the receipts and expenditures of the State government, for each of the years 1872-73-74-75-76-77, and '78, during which period more than a million of dollars of our State bonds will become due, I am quite satisfied that, with an aggregate State tax for 1872, of one and one-third mill on the dollar, and but one mill on the dollar annually thereafter, the bonded debt of the State can be paid at its maturity, all necessary appropriations be made for each of the State institutions, and the new Capitol completed and paid for within six years from January, 1872. That you may the more readily judge of the correctness of this opinion, and

that the prosperous condition of our State affairs may be understood by the people, I have prepared, to be placed before you, tables of estimated receipts and expenditures for the period above named.

Fully convinced, as I am, that the best interests of the State will be promoted by an early completion of the new Capitol, I respectfully recommend that the law be so amended as to authorize the Board to advertise for proposals for the whole work, to be completed within six years from January of the present year, at a cost not to exceed twelve hundred thousand dollars, including employment of architect, superintendence, and other necessary expenses.

For the accomplishment of this object, I recommend an appropriation of two hundred thousand dollars annually, for each of the years 1873-4-5 and 6, and three hundred thousand dollars, or so much thereof as may be necessary, for 1877; and that the Auditor General be directed to incorporate these sums with the State tax for the years 1872-3-4-5 and 1876.

Ample provisions having been made for the payment of the funded debt of the State, by setting apart some of the trust fund receipts, and such portion of the specific taxes as may not be required for the payment of interest on the public debt, there is no longer a necessity for the one-eighth mill tax to constitute a sinking fund. Leaving this off, the State tax will be reduced seventy-eight thousand seven hundred and fifty dollars. (\$78,750.)

I therefore recommend the repeal of Section 4, Act No. 122, Laws of 1861, and Section 5 of the same Act as amended by Act No. 134, Laws of 1863, and by Act No. 309, Laws of 1865.

The receipts from specific taxes set apart by the Constitution for the payment of interest and principal of the State debt, have become so large as to do away with the necessity

for appropriations of specific amounts from the general fund for the payment of interest. I recommend the repeal of Act No. 139, Laws of 1871, and the passage of an act making an appropriation from the general fund of such an amount as may be necessary annually hereafter for the payment of interest on the bonded debt.

Under the provisions of Joint Resolution No. 31 of 1869, swamp lands appropriated by any law for the construction of roads in the Upper Peninsula may be used in the construction of railroads. Section 15 of Act No. 155, Laws of 1869, has been construed as conferring upon the Swamp Land State Road Commissioner for the Upper Peninsula exclusive authority and power, without the advice or consent of the Governor or the State Board of Control, to transfer lands appropriated for State Roads to railroad companies. Without now entering upon the discussion as to the meaning of this section, I am clearly of the opinion that the Commissioner should possess no such power.

The Legislature, at its last session, placed the entire body of State Swamp and Indemnity Lands, and all State Swamp Land Roads of the Lower Peninsula, in the hands of the Board of Control. The experience of the past year has, in my judgment, confirmed the wisdom of the action then taken. I recommend the repeal of Section 15, Act No. 155, Laws of 1869. I also recommend that the swamp lands and roads of the Northern Peninsula be placed under the direction of the Board, with the same power as is now exercised over those of the Southern Peninsula.

I respectfully call your attention to what, to me, seems to be a serious defect in the provisions of Act No. 195, Session Laws of 1871. It was unquestionably the intention of the Legislature, to make it the duty of railroad com-

panies to provide all suitable safeguards for the protection of life and property on the line of such roads, by constructing fences, ditches, and cattle-guards, to prevent cattle and other animals from getting on the track; and to make these corporations liable for all damages resulting from neglect in the construction or the maintenance of these safeguards. The railroad companies claim, that under the provisions of Section 36, they are not liable for stock killed, except where the owner of the animal owns or occupies the land directly adjacent to the locality where the killing occurs. If this construction is correct, then these corporations are not required to fence or place cattle-guards upon the line of their roads, where the land immediately adjacent is vacant, though other lands a few rods distant are cultivated and occupied. This section needs careful revision to remedy the defect referred to.

The Supreme Court, at its last term, decided that the statute providing for the removal from office, of school district officers and inspectors, for offenses therein named, does not apply to fractional school districts. There is a large number of fractional districts in the State, and some means should be provided for the removal of delinquent officers in these as well as in districts located wholly within one township. I recommend that the law be so amended as to apply alike to all school districts.

The attention of many of the municipal governments of the State having been directed to the necessity of a more abundant and sure supply of water for the ordinary purposes of the people, and the protection of property in case of fire, quite a number of these corporations have taken measures for the construction of water-works. Frequently it is found necessary to bring the water from a distance outside of the corporate limits. In some such cases, the right to lay supply pipes has been

obtained with great difficulty. This is a matter of much importance, and your attention is called to the necessity for a revision of the general law on this subject.

My attention has been called to a statute of the State of New York, which makes it impossible, without the existence of a similar statute in this State, for the guardian of minor heirs residing in Michigan, but having property belonging to them in the former State, to obtain possession and control of such property. Inconvenience and loss have already resulted from the want of such provision, and I recommend the passage of such an act as the New York statute contemplates and requires.

The report of the Geological Survey of the entire Upper Peninsula, including valuable maps and charts, is nearly ready for publication, and may be completed to be laid before the Legislature at its next regular session. No provision, however, has been made for its publication. Without this, the whole work will be of comparatively little value. I respectfully suggest the propriety of passing a Joint Resolution, authorizing the Board of State Auditors to audit and allow such necessary expenses of publication as may be ordered and approved by the Geological Board.

My attention has been called by the President of the United States, to the twenty-seventh article of the recent "Treaty between the United States and Great Britain," which article is in these words, to wit:

"ARTICLE 27. The Government of Her Britannic Majesty engages to urge upon the Government of the Dominion of Canada to secure to the citizens of the United States, the use of the Welland, St. Lawrence, and other canals in the Dominion, on terms of equality with the inhabitants of the Dominion; and the Government of the United States engages that the subjects

of Her Britannic Majesty shall enjoy the use of the St. Clair Flats Canal, on terms of equality with the inhabitants of the United States, and further engages to urge upon the State Governments to secure to the subjects of Her Britannic Majesty, the use of the several State canals connected with the navigation of the lakes or rivers traversed by, or contiguous to the boundary line between the possessions of the High Contracting Parties, on terms of equality with the inhabitants of the United States."

I am not aware that the laws of this State, relating to the use of the St. Mary's Falls Ship Canal, in any way discriminate between the citizens of the United States and those of any other country. But it is proper that Michigan should place upon record its approval of the article, by giving official assent to the use of the canals within its borders, upon terms of entire equality, to the subjects of Her Britannic Majesty and the citizens of our own country. I recommend the passage of a joint resolution to this effect.

Early in October last several of the Northwestern States were visited by fires, unparalleled in the annals of history. A large portion of the beautiful and wonderfully prosperous city of Chicago was reduced to ashes; the accumulations of years of industry and toil were swept away in a day. In Wisconsin the widespread conflagration was attended with a most fearful loss of life.

While the people of Michigan were engaged in the noble work of furnishing relief to the sufferers in Chicago, the same devouring element was making sad havoc in our own State. Thriving towns, farm and school houses, churches, stock, crops, and thousands of acres of valuable timber were consumed. Nearly three thousand families, or about eighteen thousand persons, were rendered houseless and deprived of the necessities of life.

Immediately after the fires, two State Relief Committees were appointed, one at Detroit for the eastern, the other at Grand

Rapids for the western part of the State. Committees or agents were also designated in each of the counties and many of the towns of the burned districts, to procure information as well as to receive and distribute supplies to the sufferers.

Responsive to the appeal of the Executive and of the committees, prompt and liberal contributions of money, food, and clothing came from our own citizens, from almost every State in the Union, from Canada, and from beyond the Atlantic.

Cash contributions to the Relief Fund have been received as follows :

By the Governor.....	\$156,876 50
" Committee at Detroit.....	129,958 79
" " Grand Rapids.....	43,333 57
" " Holland.....	35,018 11
" " Manistee.....	5,408 49
" " East Saginaw.....	12,811 47
" " Port Huron.....	13,532 00
" " Fillmore, Overisel, and Laketown.....	492 00
By the Hon. Thos. W. Ferry, Grand Haven.....	23,329 73
" Hon. W. W. Wheaton (then Mayor), De- troit.....	11,345 64
By other committees and individuals, probably..	30,000 00
<hr/>	
Total	\$462,106 30

Large quantities of clothing and other supplies have also been received, the value of which is estimated at fully \$250,000.

Lieutenant-General Sheridan very promptly proffered aid for our suffering people. From his department of the federal government we received two thousand pairs of blankets, four hundred men's overcoats, and one thousand pairs of men's socks.

I also received from the Hon. George M. Robeson, Secretary of the Navy, a liberal offer of clothing, which was declined, because the quantity of that article then in the hands of the

committees, was by them believed to be more than sufficient for the emergency.

A considerable number of bridges having been destroyed, the State Board of Control took prompt measures to have them rebuilt, and made appropriations of swamp lands for that purpose.

Being of the opinion that the gifts of a generous public could be more discreetly distributed by the committees, that it would be unwise to multiply agencies for that purpose, I have from time to time placed in their hands all moneys received by me—with the exception of \$135, paid to the special object for which it was contributed. To the committee at Detroit I have paid \$128,098.41, making the cash receipts of this committee \$258,057.20; to Grand Rapids \$28,643.09,—total money receipts of that committee, \$71,976.66.

So prompt and bountiful had been the donations, that, believing the people of Michigan would be unwilling to tax a generous public one moment longer than was necessary, a proclamation was issued by me early in January,—with the full concurrence of the committees,—in which I took occasion, in behalf of the State, to thank the public for their noble charity, by means of which, the sufferings of our citizens had been so greatly alleviated, and to announce that further contributions were unnecessary.

The members of the several relief committees have devoted a very large amount of time and labor, at great personal sacrifice, to the difficult work imposed upon them, and have discharged the duties of this almost thankless task with fidelity and good judgment, and all without the slightest compensation, except such as always comes from a consciousness of having lightened the burdens of suffering humanity.

I cannot close this notice of the great fires without grateful mention of the valuable favors and substantial service rendered by railroad, express, and telegraph companies. Freight in very large quantities, from almost every State in the Union, has been

transported free of charge. The use of the telegraph wires has also been freely given for all relief business. Thousands of dollars have thus been saved to the relief fund.

The people of Michigan can never forget or fail to express their high appreciation of the generosity and warm sympathy so nobly manifested by the old and the young, the rich and the poor, in behalf of our afflicted citizens.

In closing this communication to you, the representatives of the people of the commonwealth, it has seemed to me fitting and proper that an official recognition should be made of our obligations to those who have done so much to obliterate from within our borders the evidences of a widespread and fearful calamity.

⁷ The cash receipts from the sale of Agricultural College land during the ten months
from Nov. 30, 1870, to this date, were \$20,101 58. But the Agricultural College Fund re-
ceipts were not, until Act No. 68, Laws of 1871, p. 87 took effect, held or treated in the
manner of the other Educational Funds. The passage of that act, however, brought
the receipts of this Fund, under the operation of the same laws as applied to other
funds of like character. Hence the aggregate receipts of the Agricultural College
Fund are now placed in the statement, as in the text.

DIRECT TAXES.

The net receipts¹ to the State Treasury from this source, since the close of the last fiscal year, amount to \$482,418 53, being in excess of the amount of State tax apportioned for 1870 by \$87,173 56.

There was returned² to the Auditor General of the several taxes levied in 1870, \$748,813 87. Of this amount, \$60,334 18 was rejected, and the remainder, \$688,479 69, passed to the credit of the proper counties.

The apportionment of the State taxes³ for the year 1871 was made upon the taxable valuation of the several counties as determined by the State Board of Equalization⁴ at its meeting in August of the present year. The several amounts and the acts authorizing the apportionment thereof, are set forth in the following

STATEMENT.

There remains of the amount paid into the Treasury, \$380 92. The payment of \$10,322 23, as stated above, extinguishes the indebtedness of the Canal Fund to the counties, and the demands against this fund hereafter will be limited to the current interest upon the Canal Loan, incidental expenses, and the accumulation of such an amount as will meet the payment of the yet outstanding \$81,000 00 Canal Bonds, at their maturity on the first day of July, 1879.

SUSPENSE ACCOUNT.

Under a settlement made by the Board of State Auditors,¹ as provided by Joint Resolution No. 23, Laws of 1869, there has been passed to the credit of the Suspense Account, \$19,622 19; \$5,475 00 of which amount was in cash; the balance, \$14,147 19, in lands. The record of the disposal of these lands will be kept through the "Dewey Asset Lands" account, opened upon the books in this office for this purpose. This credit of \$19,622 19 reduces the balance of the Suspense Account from \$33,001 31, at which it stood November 30, 1870, to \$13,379 12.

¹ Vide Report of Board of State Auditors for 1871.

MORTGAGES.

Under the provisions of an act entitled "An act to organize and regulate Banking Associations," approved March 15, 1837, a large number of mortgages were executed, or assigned to the Auditor General, as collateral security to the debts created by the several banking associations organized and regulated by said act.

The Supreme Court of this State, in *Green v. Graves*, 1 Douglass, 351, declared the act under which these mortgages were executed to be unconstitutional and void.

The Legislature of 1871, by Joint Resolution No. 30, instructed the Auditor General to discharge all mortgages given under said act of 1837, or the amendments thereto, upon the application of the owner of any land so mortgaged. The Legislature of 1850 had previously, by Act No. 233, 1850, directed the cancelment of these mortgages upon application of the proper parties. Since the passage of the joint resolution of 1871, a few of the mortgages have been discharged as directed thereby.

Appended to this report is a list¹ and abstract of all mortgages of this class now remaining on file in the Auditor General's office, and subject to discharge upon application of the owner of any land so mortgaged.

MINING COMPANIES.

There has been collected from the Mining companies doing business in this State, taxes to the amount of \$8,984 63. Except \$5 00, this amount has been paid by the Copper Mining companies. Of the producing Iron Mining companies, only the Magnetic has reported as required by law, and hence, except the Magnetic, have avoided the payment of any tax. Until the law is so amended as to direct the levy of a tax upon the Iron Mining companies upon such data as can be obtained

¹ Appendix, p. 225.

from other sources in all cases where the companies fail to report the product of the mines, there is no prospect of getting from this class of Mining companies the taxes directed by law to be collected.

ACCOUNTS WITH COUNTIES.

As appears from the statements of accounts between the State and the several counties, made on the first day of July, the balances¹ in favor of the State amounted to \$162,526 63, while those in favor of the several counties reached \$616,814 38, showing a net balance at that time against the State of \$453,287 75.

COUNTY TREASURERS.

Except from the counties of Charlevoix and Houghton, the County Treasurers made their returns of delinquent taxes within the time limited by law therefor. The returns from Charlevoix were not received at this office until the twentieth day of June, and from Houghton not until the twenty-fifth day of July.

The case of the Treasurer of Houghton county, Seth Rees, is such that the duty to bring it specially to your notice seems imperative. Persistent and continued neglect on his part of official duty, renders it impossible to transact necessary business between this department and Houghton county.

The delinquent taxes of Houghton county for the year 1869 were not returned to this office until July 5, 1870. The Legislature, at the extra session in July, 1870, by Act No. 6, Laws of 1870, legalized the return, and directed that the lands be advertised and offered for sale. The directions of the law were complied with. The County Treasurer, however, failed to make his return of the sales until long after the time fixed by law, and the Auditor General to get from him the money received at such sale.

¹ At the November settlement, the aggregate of balances against the State was \$384,564 09, and in favor of the State \$228,376 51, reducing the net balance against the State to \$151,188 18.

The returns of delinquent taxes of Houghton county for the year 1870 were again so late as to prevent the advertising and sale of the lands, the return not reaching this office until July 25, 1871. Pending the time the tax returns should have been in this office, applications for the payment of the taxes against lands lying in said county were frequent. The parties making such applications were notified of the non-receipt of the returns, their money held—except when ordered returned—for the discharge of the taxes when the return should be received. So far as not discharged under these applications, or by payment to the County Treasurer, the return of taxes from Houghton county was rejected.

The County Treasurer, in the collection of taxes and redemption money, and in conducting the sale of lands for delinquent taxes, acts as the agent of the State, making the collections and conducting the sale under the direction of the Auditor General. As such an agent, Seth Rees has so long neglected his law-imposed duties, that the neglect can only be construed as a refusal on his part to perform those duties, and such refusal can hardly require less than that the place now held by him be transferred to safer, prompter, more reliable hands; and in the interest of the State the consideration of such a transfer is hereby brought to your notice.

WILLIAM HUMPHREY,
Auditor General.

There now stands to the credit of the Primary School Interest Fund \$64,198 73, which amount, together with the receipts of that fund previous to May 1st, 1872, will at that time be due, and apportioned and paid to the counties.

The Trust Funds received since July 1st, 1871, amount to \$45,034,91, which are held as belonging to the Sinking Fund, though not formally set over thereto until July 1st, 1872.

Act No. 68, Laws of 1871, requires that the moneys received from the sale of Agricultural College Lands shall constitute a perpetual fund. The amount to the credit of that fund is \$40,161 53.

During the year the sum of \$3,300 00 has been paid into the Treasury for lands escheated to the State. This includes the final payment by Walter Crane of \$3,000 00, on account of the purchase of the Reeder Farm, also the payment of \$300 00 by Ellen J. Wilson, on a contract for a tract of land in the town of Dearborn.

There has been received during the year, from the Treasurer of the United States, \$11,079 11, as five per cent of the proceeds of sales of the public lands lying within this State; of which amount, \$8,464 03 has been paid to Francis B. Gilbert, agent and trustee of William Beard and others, in compliance with the provisions of Joint Resolution No. 12, Laws of 1869.

In accordance with the provisions of Act No. 68, Laws of 1871, the \$15,000 00 of War-Bounty Loan Bonds, held in trust for the Agricultural College, were purchased for the Sinking Fund and canceled, and the amount placed to the credit of the College Fund.

To provide for the demands of the department of the Quartermaster General, for the payment of bounties due to soldiers under Act No. 85, Laws of 1865, \$7,000 00 of War-Bounty Loan bonds were issued, and the same purchased and retired for the Sinking Fund.

In compliance with the provisions of Joint Resolution No. 33, Laws of 1869, a payment into the Treasury of \$5,475 00 has been made by George M. Dewey, and lands to the amount of \$14,147 19 conveyed to the State, which amounts have been placed to the credit of Suspense Account.

Under the provisions of Joint Resolution No. 8, Laws of 1869, Theron Ford, having previously paid for his portion of Lot No. 1 in Block No. 83, city of Lansing, the remainder of said lot has been paid for by Wm. H. Haze, and a deed issued for the same.

In accordance with the provisions of Joint Resolution No. 27, Laws of 1871, the sum of \$3,437 00 has been set over from the General Fund to the State Building Fund, and from the latter fund to the Primary School Fund, for the purchase of Block No. 115, city of Lansing,—the block occupied by the old Capitol building and the temporary State Offices.

The sum of \$3,250 00 has been paid to the State Agricultural Society, under the provisions of Joint Resolution No. 18, Laws of 1871, in payment for a brick building erected by

said society in the year 1865, on the grounds of the State, in possession of the State Normal School at Ypsilanti.

There has been paid during the year to the treasurer of the State Military Boards, under the provisions of Act No. 35, Laws of 1869, \$3,500 00 for the benefit of the Soldiers' Aid Fund.

A payment of \$155 46 was made for the arrest of a fugitive from justice, under the provisions of Section 6, Chapter CC., Compiled Laws.

The last outstanding "Full-paid Five-Million Loan" bond for \$3,000 00 has been presented and paid, together with two years' interest which remained due on the same.

One more of the Part-paid Five-Million Loan Bonds for \$3,000 00 has been adjusted and paid at \$1,735 71. Both of these bonds were due January 1st, 1863, but not heretofore presented for payment.

An Internal Improvement Loan Coupon for \$30 00 was received from Boston and paid, the bond from which it had been detached having been paid some twenty years ago.

SINKING FUND.

The ledger debit of this fund is \$948,433 68, while the Trust Fund credit of the same (not shown on the ledger) is \$1,288,551 99, giving a net credit of \$340,118 31. This amount includes \$50 00 for a War-Loan Bond, drawn for payment January 1, 1863, not yet presented.

ANNUAL REPORT
OF THE
COMMISSIONER
OF THE
STATE LAND OFFICE
OF THE
STATE OF MICHIGAN,
FOR THE YEAR 1871.

BY AUTHORITY.

LANSING:
W. S. GEORGE & CO., PRINTERS TO THE STATE.
1871.

REPORT.

MICHIGAN STATE LAND OFFICE, }
Lansing, November 1, 1871. }

To His Excellency, HENRY P. BALDWIN,

Governor of the State of Michigan :

SIR:—In accordance with the provisions of act No. 126, approved April 15, 1871, the following is presented as the annual report of this office for the fiscal year ending September 30, 1871. The various classes of lands under the jurisdiction of this department may be enumerated as follows : Primary School Lands, University Lands, Normal School Lands, Asylum Lands, State Building Lands, Salt Spring Lands, Internal Improvement Lands, Agricultural College Lands, Asset Lands, and Swamp Lands.

PRIMARY SCHOOL LANDS.

By the provisions of an act of Congress approved June 23, 1836, entitled " An act supplementary to the act entitled ' An act to establish the northern boundary line of the State of Ohio, and to provide for the admission of the State of Michigan into the Union on certain conditions,' " " section numbered sixteen in every township of the public lands, and where such section has been sold, or otherwise disposed of, other lands equivalent thereto, and as contiguous as may be," was granted to the State for the support of schools ; and it appears by the last annual report from this office, that of this class of lands there was vacant and subject to entry on the 30th day of November, 1870, 468,713.07 acres ; sold since November 30, 1870, 26,447.16 acres ; leaving vacant and subject to sale, 442,265.91 acres at the date of this report.

Table No. 1 exhibits an abstract of sales by counties, showing the whole number of acres sold, amount sold for, the amount paid, and the amount still due on which the State is receiving interest.

Table No. 2 makes the same exhibit in regard to the sales of land once forfeited for non-payment of interest.

Table No. 3 gives a monthly abstract of sales, including "State" lands and "Forfeited" lands. The item of \$500.00 in the month of March, in Table No. 3, was received on deposit by my predecessor, in payment for certain property in the city of Marshall, supposed to belong to the State by virtue of a chancery sale on the foreclosure of a certain mortgage given by Andrew Mann to John D. Pierce, Superintendent of Public Instruction, dated August 7, 1837. A memorandum of agreement now on file in this office, of which I give a copy, will explain the sale of said property:

"It satisfactorily appearing to the undersigned, that under and by virtue of joint resolution No. 26, laws of 1857, our immediate predecessors in office examined into the condition of the premises mentioned in said joint resolution, and on the 15th day of July, 1868, agreed to sell and transfer the interest of the State in and to said premises to Hon. Preston Mitchell for the sum of five hundred dollars, and that said Mitchell, on the day and year last aforesaid, deposited said sum with the Hon. B. D. Pritchard, then the Commissioner of the State Land Office, where the same has since and now remains: And it further appearing to us from an examination of the premises, that to gain possession of said premises for the State will require long litigation with the heirs and representatives of one Joseph Sibley: We do therefore hereby consider it for the best interests of the State to ratify and carry into effect the verbal arrangement heretofore made by our predecessors in office and the said Mitchell, and do accept the said sum of five hundred dollars in full for any and all the interest the State has in and to the said premises and every part thereof; and, in consideration of the premises, we do hereby agree to sell the interest of the State in and to said premises for the sum aforesaid, and accept said sum in full payment thereof, and acknowledge receipt of the same in full.

LANSING, March 10, 1871.

(Signed)

"CHAS. A. EDMONDS,

"Commissioner State Land Office.

(Signed)

"DWIGHT MAY,

"Attorney General."

In pursuance of the foregoing agreement I executed and delivered to said Mitchell a quit-claim deed for that portion of said property that belonged to the Primary School Land, and the five hundred dollars was paid into the Treasury to the credit of that fund. That part of the land that was taken as security for the loan from the University Fund has not been sold, and the title in the State is so questionable that I have not thought best to report the land as subject to sale.

In addition to the above amount of Primary School Land, the State is still entitled to about 45,000 acres, to be selected in lieu of and for deficiencies in section sixteen, in cases of *fractional townships*, in which there is no such section; and correspondence with the Department at Washington on this subject was commenced in 1861 by the Hon. Samuel S. Lacey, then Commissioner of this office, but no satisfactory conclusion has as yet been reached.

UNIVERSITY LANDS.

By an act of Congress approved May 20, 1826, two entire townships, or seventy-two sections of land, were set apart and reserved from sale "for the use and support of an University" within the Territory of Michigan. And by an act approved June 23, 1836, the said seventy-two sections were "granted and conveyed to the State," and the report from this office for the year 1870 shows that on the 30th day of November of that year there was vacant and subject to entry 131.75 acres, and there have been no sales during the year of this class of lands.

NORMAL SCHOOL LANDS.

Twenty-five sections of the Salt Spring Lands were appropriated by act No. 138 of the laws of 1849, for the establishment of a State Normal School; ten sections for the erection of buildings, and fifteen sections for a Normal School Endowment Fund. The last annual report from this office says that

"The lands belonging to this fund have all been sold, and nothing remains to be done at this office excepting to receive the balance due upon certificates, and close up the accounts."

ASYLUM LANDS.

By the provisions of "An act to establish an Asylum for the Deaf and Dumb, and the Blind, and also an Asylum for the Insane of the State of Michigan," approved April 3, 1848, eight sections of the State Salt Spring Lands "were appropriated for the erection of suitable buildings therefor," and by section three of act No. 133 of 1849, the amount was increased to fifteen sections, and an additional appropriation of ten sections was made by act No. 282 of the laws of 1850. At the last report there remained unsold of this class of lands, 880 acres, and there have been sold during the year just closed, 120 acres; leaving vacant and subject to entry, 760 acres. Tables 4 and 5 give an abstract of sales of this class of lands.

STATE BUILDING LANDS.

Five entire sections of land were donated to the State by an act of Congress approved June 23, 1836, for the purpose of completing or erecting public buildings for the State Capitol, the selection and disposition of the same being given by Congress to the State Legislature. In addition to this, Blocks No. 91, 100, 101, 111, 112, and 249, in the city of Lansing, were, by the provisions of law, purchased from the Primary School Lands for the sum of *one dollar*, and were thereafter designated as State Building Lands. Also, certain other lots in Lansing were obtained from one William H. Townsend, which were disposed of by the State for the same purpose. The last report from this office says "there are no vacant lands belonging to this fund."

SALT SPRING LANDS.

By the fourth proposition of the act of Congress of June 23, 1826, "All salt springs within the State not exceeding twelve

"in number, with six sections of land adjoining, or as contiguous as may be to each," were granted to the State for its use, and their sale by the State was subsequently authorized by Congress. The Normal School and Asylum Lands were appropriated by the State Legislature from this class of lands, and there remained unsold at date of last report, 1,255.63 acres. Sold since date of last report 40 acres, leaving vacant and subject to entry 1,215.63 acres.

INTERNAL IMPROVEMENT LANDS.

Five hundred thousand acres of land for the purposes of internal improvement were granted to the State by an act of Congress approved September 4, 1841, and it appears from the report of the Commissioner of the General Land Office for the year 1870, that there remains to be selected for the State 1,361.46 acres, and from the last report of the Commissioner of the State Land Office it appears that the total amount of this class of lands unsold was 460.31 acres. Sales during the year, 160 acres, leaving vacant and subject to entry 300.31 acres at the date of this report.

AGRICULTURAL COLLEGE LANDS.

These lands were granted to the State by an act of Congress approved July 2, 1862, which provided that "an amount of public land, to be apportioned to each State, a quantity equal to thirty thousand acres for each Senator and Representative in Congress to which the States are respectively entitled by the apportionment under the census of 1860," and according to the report from this office for the year 1870, there was received from the United States, under the grant, 235,673.37 acres, and there were at that time vacant 218,393.37 acres. During the past year there have been sold 9,372.44 acres, leaving vacant and subject to entry 209,020.93 acres. On the 30th day of September, 1871, Tables 8 and 9 show abstracts of sales of these lands, and a comparison with sales of the preceding year shows an increased sale of 6,092.44 acres.

ASSET LANDS.

This class of lands is described in the Commissioner's report for the year 1845, as "a part of the lands received from the Michigan State Bank, and otherwise, in payment of debts due the State," and have been mostly sold in previous years, there being no sales to report for the last fiscal year. But there appears from the books of this office to be 400 acres vacant and subject to sale at the appraised value for each description.

SWAMP LANDS.

The act of Congress approved September 28, 1850, entitled "An act to enable the State of Arkansas and other States to reclaim the Swamp Lands within their limits," provided that "the whole of those swamp and overflowed lands, made unfit thereby for cultivation, which shall remain unsold at the passage of this act, shall be and the same are hereby granted to said State." The whole amount of land patented to the State under this grant has been variously reported at different times. The report from this office for the year 1868 gave the amount patented as 5,851,984.54 acres. The report for 1870 gave the amount patented as 5,794,308.57 acres, showing a discrepancy in the two reports of 57,675.97 acres, and the last annual report of the Commissioner of the General Land Office gives the total patented to the State as 5,836,788.82 acres, including Indemnity Lands to the amount of 18,823.93 acres.

There were reported from this office as vacant and subject to entry on November 30, 1870, including the Indemnity Lands, 3,155,713.37 acres. There have been sold since that date, including those licensed and patented on licenses, an aggregate of 331,518.68 acres, leaving at the date of this report as subject to sale, 2,824,194.69 acres, including all reservations on roads, etc., made during the year.

Table No. 10 shows the amount of Swamp Lands sold for "scrip" in payment for building State roads, ditches, etc., 307,203.71 acres. In the amount of sales reported in Hough-

ton county, there is *twice included* 743.40 acres, which had been sold to various parties, but, under an order from the Supreme Court, the same was included in a list made up to Houghton county for the construction of the "Mineral Range State Road," and I deem it proper in this connection to give a brief synopsis of that case, as it involves the interest of the State in what has heretofore been considered as one of her most valuable possessions.

By the act of March 20, 1863, the Legislature appropriated to the counties of Houghton and Keweenaw two sections of State Swamp Land per mile for the construction of the "Mineral Range State Road." The county of Houghton, having complied with the terms of the law, filed lists of their selected lands with the Commissioner, and demanded patents for the same; but some of the lands for which patents were demanded being in the "Mineral Reservation," patents were refused, whereupon the county instituted proceedings against the Commissioner of this office in a case in the Supreme Court of the State, entitled "The People *ex rel.* The County of Houghton *vs.* The Commissioner of the State Land Office."

The court, in this case, adjudged that "patents cannot be refused simply on the grounds that they were mineral lands." A writ was issued, in obedience to which, *mineral lands*, and also some descriptions that had been sold to other parties, were made up, on the "Mineral Range Road."

Table No. 11 exhibits the sales of Swamp Lands that had been previously sold on part payment, and forfeited for non-payment of interest.

Table No. 12 gives a monthly abstract of sales of Swamp Lands, making a total sold for "scrip" during the year, of 313,280.24 acres.

CASH SALES.

The ratio of cash to "scrip" sales during the last fiscal year has been very small, owing, in part, to the comparatively low price of "scrip" during the first six months of the year,

and the fact that a less number of persons desired to purchase for "actual settlement and cultivation."

Table No. 13 exhibits an abstract of sales of Swamp Land for cash, showing sales by counties, etc.

Table No. 14 shows the cash sales by counties, of forfeited Swamp Lands, previously sold on part payment.

Table No. 15 gives a "monthly abstract" of cash sales of Swamp Lands, including *State* and forfeited lands, part, and full payment.

HOMESTEAD LICENSES.

Under the provisions of act No. 229, of 1859, as amended by act 108, laws of 1861, there have been issued during the fiscal year 224 licenses to actual settlers; and, after deducting forfeited and surrendered licenses, there remained as *licensed during the year* land to the amount of 15,837.44 acres, and there were patented upon proof of five years' settlement and cultivation of the lands licensed in previous years, 4,972.46 acres.

Table No. 16 shows the amount by counties, and No. 17 a monthly abstract of licensed homesteads.

I omit in this report the "comparative statement" of Swamp Land sales "for each fiscal year," but I find on comparing the sales of the last year with the tabular statement in the last report from this office, that the total sales for the ten months of the fiscal year ending September 30, 1871, exceed the sales of any previous year by 30,922.78 acres, showing conclusively that the transactions in Swamp Land are not decreasing. But I cannot predict the same activity during the coming year. The unprecedented fires that have devastated the northern portions of our State, must inevitably have the effect to largely reduce the sales of all classes of State Lands for some time to come; and the State, as well as individuals, must suffer the consequences of this direful calamity.

MINERAL RESERVATIONS.

The lands lying in the following townships, viz :

Towns 46, 47, and 48 N., R. 9 W.; towns 46, 47, and 48 N., R. 10 W.; towns 41, 42, 43, 44, 45, and 46 N., R. 13 W.; towns 42, 43, 44, 45, and 46 N., R. 14 W.; towns 42, 43, 44, and 45 N., R. 15 W.; towns 41, 42, 43, 44, and 45 N., R. 16 W.; and towns 44 N., R. 17 W., being the same lands reported November 30, 1870, as *supposed* to be valuable for mineral purposes; having been examined and reported *not mineral* lands, they were restored to market at the original minimum price of one dollar and twenty-five cents per acre.

As before stated, the Supreme Court of the State opened up the other Mineral Reservations, as to State Swamp Lands, to the appropriation for the "Mineral Range State Road," and as a large amount yet remains to be patented on that road, it is expected that all the valuable Mineral Swamp Lands will be disposed of on that appropriation. It is proper here to remark that the appropriation only reaches Swamp Lands, and that the Primary School Lands reserved as Mineral remain as heretofore.

RESERVATIONS ON ROADS, ETC.

By the provisions of law, contractors for building State roads are entitled to have lands withheld from sale "during the full time specified in said contract for the completion thereof;" and there appears on the books of this office as reserved on various roads, 184,828.19 acres.

In addition to this amount, there are in the Upper Peninsula, reserved to the "Chicago and Northwestern Railroad Company," 75,278.93. These lands were reserved under the provisions of the act of March 15, 1861.

GENERAL REMARKS.

In addition to the lands heretofore enumerated, there have been several other grants made by Congress to the State for various purposes, among which may be mentioned the St. Mary's Falls Ship Canal, 750,000 acres; Lac LaBelle Ship Canal, 100,000 acres; Portage Lake Ship Canal, 400,000 acres

PERSONAL.

On assuming the duties of this office January 3, 1871, I gave receipt to my immediate predecessor for a list of cash items which were on deposit, amounting to \$3,171.48. These items consisted in "old currency," checks' and drafts on various banks, and national currency, and were the accumulation of years of loose business transactions. I soon commenced a correspondence with the various owners of these several items, and, wherever I have been able to find them, I have returned their money. Some of the items were for the purchase of lands, and were so used as soon as they could be reached. Some were for the purchase of lands to which there were adverse claims, and at the request of the owners they have been allowed to remain subject to sight drafts. In the course of time I discovered that the moneys received for fees for plats, etc., were *not registered*, and that only a *portion* of them were paid into the State Treasury at the close of each month, the *larger* portion being invested in private business, "*to be paid into the Treasury at the close of the fiscal year,*" and as soon as I discovered these transactions, I caused *each item* to be properly entered in a record book, showing date, name, and residence, the kind of work furnished, and the amount received, and at the end of the month the *whole* receipts to be paid into the State Treasury and a receipt taken therefor.

On a thorough examination of the books of this office, I became convinced of the necessity of a consolidation of the records of sales of the different classes of lands and especially of the Swamp Land Grant.

As the result of this conviction, I have in course of preparation a complete abstract of all the Swamp Lands contained in the original grant to the State, compiled by townships, and showing at a glance the whole history of each description of land.

This report, embodying the items required by law to be furnished, "and all such other matters relating to his office as he may think proper to communicate," is respectfully submitted.

CHAS. A. EDMONDS,
Commissioner State Land Office.

1871.

REPORT.

OFFICE OF THE BOARD OF STATE AUDITORS, }
Lansing, Nov. 1, A. D. 1871.

To His Excellency, HENRY P. BALDWIN,
Governor of the State of Michigan :

In obedience to the requirements of law, the undersigned submit, respectfully, the following report, showing the proceedings of the Board of State Auditors for the fiscal year—ten months—ending the 30th day of September, A. D. 1871.

DANIEL STRIKER,
Secretary of State.

V. P. COLLIER,
State Treasurer.

CHAS. A. EDMONDS,
Com. of the Land Office.

ANNUAL SETTLEMENT WITH THE STATE TREASURER.

The Board of State Auditors, for the purpose of making an annual settlement with the State Treasurer, met at the office of the Secretary of State, on the 14th day of December, A. D. 1870.

Present: Hon. O. L. Spaulding, Secretary of State, Hon. Wm. Humphrey, Auditor General, and Hon. B. D. Pritchard, Commissioner of the State Land Office.

The Hon. E. O. Grosvenor, State Treasurer, having exhib-

ited his account current with the State of Michigan, and the same having been compared by the Board with the books of the Auditor General, we find that during the fiscal year ending the 30th day of November, 1870, the State Treasurer has received into the Treasury, including the balance on hand Nov. 30, 1869, of eight hundred and thirty-four thousand eighty-nine and 72-100ths dollars (\$834,089 72), the sum of two millions five hundred and fifty-two thousand six hundred and thirteen and 44-100th dollars (\$2,552,613 44), and that he has disbursed the sum of two millions ninety-four thousand three hundred and five and 47-100th dollars (\$2,094,305 47); showing a balance in the treasury of four hundred and fifty-eight thousand three hundred and seven and 97-100th dollars (\$458,307 97), for which balance he exhibited duly accredited vouchers and certificates.

O. L. SPAULDING,
Secretary of State.
WM. HUMPHREY,
Auditor General.
BENJ. D. PRITCHARD,
Com. State Land Office.

BOND OF L. B. CURTIS.

April 26, 1871.

The bond of L. B. Curtis, as State Swamp Land Road Commissioner, of \$2,000, with Cyrus Hewitt and George K. Grove as sureties, was approved and ordered filed in the office of the Secretary of State.

BOND OF JOSEPH B. HAVILAND.

May 31, 1871.

The bond of Joseph B. Haviland, as State Swamp Land Road Commissioner, of \$2,000, with Morgan Bates and Eben-

ezer W. Hulbard as sureties, was approved, and ordered filed in the office of the Secretary of State.

IN THE MATTER OF SETTLEMENT WITH GEORGE M. DEWEY, UNDER
JOINT RESOLUTION No. 33, LAWS OF 1869.

July 5, 1871.

On the 5th day of July, A. D. 1871, Mr. George M. Dewey submitted a written proposition to the Board of Auditors, and in consideration of his being discharged from all liabilities to the State from what is known as the Dewey and Hazelton claim, offered to convey to the State 2,090 39-100 acres of land situated in the counties of Genesee, Lapeer, Tuscola, and Saginaw, subject to all liens of the State for taxes, clearing up all outstanding tax titles, and pay \$5,475 00 for a discharge, under Joint Resolution No. 33, 1869, authorizing the said Board of Auditors to adjust and settle with said George M. Dewey; said proposition and list of lands on file in this office. It appears from the records that a similar proposition was made to the former Board of Auditors, Dec. 30, 1870, wherein he,—Dewey,—by his counsel, Hon. Wm. M. Fenton, offered to convey 2,150 89-100 acres of land, by him valued at \$17,486, and pay in money the balance necessary to make \$19,000, the amount by him claimed to be due the State from them, as the original claim without interest. The lands were examined by the agents of the State, who reported them worth \$12,450. Thereupon, the said Board, without passing upon the question of the amount, declined to entertain the proposition at the price as proposed by Mr. Dewey. It appears by the report of the State Treasurer, Nov. 30, 1868, that the sum of \$30,377 81 has been realized from the collaterals obtained from Dewey and Hazelton upon this claim, which is all, as the Board are advised by the records, has been paid thereon.

REPORT.

OFFICE OF THE ST. MARY'S FALLS SHIP CANAL, }
Sault Ste. Marie, Mich., December 25, 1871. }

To His Excellency, HENRY P. BALDWIN,

Governor of the State of Michigan :

SIR—Pursuant to the requirements of law, I have the honor to submit herewith my annual report for the year 1871.

The business of the canal began on the eighth day of May last, the first boat having locked through on that day, upward bound, and continued without interruption until the 29th day of November last, the last boat having locked through on that day, downward bound.

The balance of cash on hand, at the date of my last annual report, December 25th, 1870, and the total amount received on account of tolls, and from all other sources, during the past season, was as follows:

Balance of cash on hand Dec. 25th, 1870.....	\$2,125 09
Received on account of tolls.....	33,865 45
Received for use of steam pump.....	1,080 00
Received for coal for use of steam pump.....	14 00
To error in A. M. Chadwick's account in April last	10 00
Total.....	<u>\$37,094 74</u>

There has been deposited with the State Treasurer, \$27,131 51	
Expended	8,937 29
Leaving a balance of cash on hand at this date,	
Dec. 25, 1871.....	1,025 74
Total.....	<u>\$37,094 54</u>

The following were the amounts expended, and the purposes for which such expenditures were made:

On account of wages for labor employed in operating the locks, including clerk's salary.....	\$6,235 50
For repairing caisson gate, including the purchase of materials to make said repairs.....	537 34
For rebuilding the upper portion of the middle and upper lock gates.....	1,226 21
For removing stone from the bottom of the canal, between the guard gate and the upper lock gate, including the setting of one snubbing-post on the lock.....	181 00
For purchase of oats and hay for canal horse, including curry-comb and brush.....	89 29
For stationery and fuel for canal office.....	118 17
For oil for light-house at head of canal, and for office	19 51
For repairs on steam pump.....	208 15
For labor in painting lock-gates, towers, booms, and braces; for the purchase of oil, white lead, lamp-black, lime for whitewash, and paint-brushes; and for the purchase of glass and putty for repairs of the office and canal-house windows, and all other materials necessary to keep the entire work in thorough repair, including express charges on money deposited..	322 13
Total.....	<u>\$8,937 13</u>

Vouchers for all disbursements, and a statement in detail of the items which make up the above account, were forwarded with each monthly statement to the Hon. Wm. Humphrey, Secretary of Canal Board of Control. Abstracts of monthly statements also accompany this report.

The following is a statement of the monthly receipts on

account of tolls during the season just closed, also the receipts from all other sources:

Received in May.....	\$3,498 16
Received in June.....	5,566 62
Received in July.....	6,975 72
Received in August.....	5,177 59
Received in September.....	4,657 14
Received in October.....	4,102 08
Received in November.....	3,888 14

Total received on account of tolls.....	\$33,865 45
Received for use of steam pump, of steamer	
Pacific	\$440 00
Received of bark Massillon.....	40 00
Received of Barker, Williams & Co.....	600 00
	<hr/> 1,080 00

Total	<u>\$34,945 45</u>
-------------	--------------------

The following is a statement of the amounts deposited with the State Treasurer during each of the following named months:

Deposited in May.....	\$2,308 75
Deposited in June.....	4,261 20
Deposited in July.....	6,277 75
Deposited in August.....	4,219 51
Deposited in September.....	3,515 00
Deposited in October	3,311 25
Deposited in November	2,638 05
Deposited in December.....	600 00

Total	<u>\$27,131 51</u>
-------------	--------------------

The rate of tolls having been reduced from six cents per ton for previous years, to four and one-half cents per ton for

the present year, a comparative statement of the receipts on account of tolls for this with that of last year would not be correct as showing the increase or decrease of the business of the canal. I therefore give a comparative statement of the tonnage that has passed through the canal, both ways, for this with that of last year, as follows:

The total amount of tonnage of vessels, both steam and sail, that has passed through the canal, both ways, the past season, was 752,100.54, as follows:

Steam.....	396,501.73
Sail.....	355,598.81
Total	<u>752,100.54</u>

As compared with the season of 1870, is as follows:

Total tonnage for 1870.....	696,825.91
Total tonnage for 1871.....	752,100.54

Increase	<u>55,274.63</u>
----------------	------------------

The tonnage of steamers that have passed through the canal both ways during the season just closed, as compared with 1870, is as follows:

Tonnage in 1870	264,224.01
Tonnage in 1871.....	396,501.73

Increase	<u>132,277.73</u>
----------------	-------------------

The tonnage of sail vessels that have passed through the canal both ways the past season, as compared with 1870, is as follows:

Tonnage in 1870.....	408,324.44
Tonnage in 1871.....	355,598.81

Decrease	<u>52,725.63</u>
----------------	------------------

You will see by the table accompanying this report that the whole number of steamers and sail vessels that have passed through the canal both ways the past season, was as follows:

Steamers	573
Sail vessels	1,064
Total	<u>1,637</u>

The number of passages of small boats through the canal the past season, which were so small that in computing their tolls their tonnage was not taken into account, was three, viz: the schooner Widgeon, two passages, and the small steamer Silver Spray, one passage. They were charged each five dollars, as directed by law in such cases, making the amount received from this source fifteen dollars.

Of the amount received on account of tolls, viz.,

\$33,865 45, the steamers paid	\$17,843 26
The sail vessels paid	16,001 71
Small boats	15 00
Total	<u>\$33,859 97</u>

Of the amount of tolls received, to wit, \$33,865 45,
the Buffalo, Erie, Cleveland, Detroit, and Lake

Superior line paid	\$9,092 96
Chicago line paid	2,612 82
Northern Transportation line paid	1,071 60
Canadian line paid	1,519 42
Transient steamers (not in the lines) paid	3,546 46
Sail vessels paid	16,001 71
Small boats paid	15 00
Total	<u>\$33,859 97</u>

The number of passengers reported as having passed up during the past season by the Buffalo, Erie, Cleveland, and Detroit Lake Superior line was.....	6,288
Down by the same.....	4,311
	<hr/> 10,599
The number of passengers reported as having passed up by the Chicago line was.....	1,417
Down by the same.....	707
	<hr/> 2,124
The number of passengers reported as having passed up by the Collingwood and Fort William line was.....	1,809
Down by the same.....	1,327
	<hr/> 3,136
Grand total.....	<hr/> <hr/> 15,859

It will be seen that there has been an increase in the business of the canal the past season, as the tonnage shows, compared with that of last year.

The increase is upon the tonnage of steamers only, as that of sail vessels has largely fallen off from that of last year, as will be seen by reference to a statement hereinafter given. The shipments of iron ore from Marquette, as reported to this office, are considerably less than those of last year.

REPAIRS MADE UPON THE UPPER AND MIDDLE LOCK GATES.

The upper and middle lock gates were rebuilt and strengthened during the months of March and April last, which rebuilding and strengthening, as stated in my last annual report, was necessary to be made. The decayed timber in the upper portion of the gates was removed, and the best sound oak timber put in its place. New fender beams were added, and the whole strengthened with iron rods 20½ feet long by 1½

inches in diameter. Fifty-six of these rods were used, thus thoroughly strengthening the whole timber work of each gate.

The entire cost of these repairs was as follows:

For the purchase of materials, to wit: timber and iron, and iron rods, including freight and charges on the same, as stated in my annual report for 1870, on page 12.....	\$669 24
For labor in making said repairs, including blacksmith work, etc.....	1,226 21
Total	\$1,895 45

CAISSON GATE.

As stated in my last annual report, this gate was removed to the canal basin for the purpose of making repairs thereon, when the water from the canal should be drawn off, thus leaving the gate in a condition for making whatever repairs might be needed. In the months of March, April, and May last, the work was done. The old planking was removed where it was found necessary so to do, and new put in. The whole structure was calked and pitched. It is now in good condition to be used, and can be made available for the purpose for which it was intended, forthwith.

The cost of the repairs of this gate was as follows:

For labor in raising the gate and removing the stone therefrom.....	\$118 25
(See report of 1870, page 4.)	
For labor in repairing, and the purchase of materials, to wit: plank, oakum, pitch, etc., including also blacksmith's bill for making bolts...	537 34
Total	\$655 59

STEAM PUMP.

The steam pump has earned during the past year \$1,180 00. Of this amount, \$1,080 00 has been received. There is still an unadjusted account against the steamer India for use of pump, of \$100, thus leaving the amount received on account of steam pump as follows:

From propeller Pacific	\$440 00
From bark Massillon	40 00
From Barker, Williams & Co.	600 00
<hr/>	
Total	\$1,080 00
<hr/>	

It has been necessary to purchase a new smoke jacket and stack, also an ash-pan and new grates, together with some other smaller items, for the pump. There has therefore been expended during the past season for engineer's service in fitting up the pump, and for the purchase of the articles above named, \$208 15.

The steamer India did not return to Lake Superior after using the pump, hence the delay in the settlement of the account. When received, it will be duly accounted for.

BOULDERS REMOVED FROM THE BOTTOM OF THE CANAL

Upon the melting of the snow and ice from the canal bottom last spring, there appeared between the guard gate

and the upper lock gate, an extensive bed of quite large boulders, varying in size from six to thirty-six inches in thickness. Several of them, the largest ones, had been struck by passing vessels, as was indicated by the marks thereon. This bed of boulders extended from just above the canal basin to within 100 feet of the upper lock gate, containing an area of 1,500 feet by 80 feet, the width of the canal bottom. I removed every one of them out at a cost of \$181, including the setting of one snubbing-post on the upper lock.

These boulders, at the time the canal was originally constructed, were undoubtedly imbedded in the sand and gravel, of which material the bottom of the canal at this point is partly composed, but the action of the water during the sixteen years the canal has been in operation has taken away the sand and other material, and thus left the boulders exposed.

REPAIRS NECESSARY TO BE MADE—THE PIER AT THE WEST
END OF THE CANAL, SOUTH SIDE.

In my annual report for 1870 I stated that it was possible that the improvement thus being made might include the removal of the pier above mentioned, and a new one built further back, thus making a wide and therefore much better channel in and out of the canal at this end. I am informed by the engineer in charge of the improvement of the canal now going on, that the pier will not be removed, or in any way repaired at the expense of the General Government; at least it is not so laid down in the plan at present.

This pier is in a tottering condition; the entire structure above water is very much decayed. When vessels and steamers come alongside, the whole structure trembles to its very base.

I therefore recommend the rebuilding of this whole pier from the surface of the water up, except that portion which was repaired as stated in my report for 1870. About 800 feet in length by 20 feet in width should be rebuilt. I estimate the cost as follows:

22,000 (lineal) feet, one foot square pine timber, @ 18c.....	\$3,960 00
8,000 lbs. of iron for bolts, @ 4½c.....	360 00
10 oak snubbing-posts, @ \$5.....	50 00
Labor in framing, putting together, bolting, etc....	1,000 00
Total.....	\$5,370 00

The timber should be contracted for this present winter, so that parties contracting therefor may have the advantage of winter's hauling, and we should, on this account, be able to make a contract on more favorable terms. The timber should be delivered next summer, and the pier rebuilt the winter following. This, I think, is as long as the pier will stand, hence the repairs should not be put off beyond that time.

THE PIER AT THE EAST END OF THE CANAL, SOUTH SIDE

This pier needs some repairs,—new snubbing-posts and planking,—and unless it is to be removed soon to give place to the new canal improvement, several new timbers should be added thereto. It is exceedingly sharp work to snub a vessel when approaching the locks, with the wind fair and blowing fresh, before she reaches the gates. This is on account of the pier being so short that a line cannot be brought to bear before the vessel reaches the gates, and therefore she is likely to do some damage. There is much risk being taken every year in this way.

I would recommend the sinking a crib upon the lot owned by the State, and recently purchased of Mr. Ryan, and in that crib place a substantial snubbing-post. This post could be reached with lines from vessels approaching the locks under the circumstances heretofore mentioned, in time to snub before reaching the gates, and thus greatly lessen the risk of injuring the lock gates.

The timbers and planking should be continuous from the present pier to the crib which it is proposed to sink. It need not be a solid structure, but somewhat temporary, as when the improvement for the new locks is taken up, all this will have to be removed. Hence, I would not recommend any considerable outlay of money, but simply to build and sink the crib, put in the snubbing-post, and connect the present pier with the proposed crib by continuous timbers and planking upon old cribs already sunk. The crib should be 14 feet square and filled with stone. I estimate the cost as follows:

840 feet of one foot square pine timber, @ 18c.....	\$151 20
4,000 feet plank, @ \$16 per M	64 00
1 snubbing-post for crib.....	5 00
4 snubbing-posts for pier.....	20 00
For filling crib.....	40 00
1,000 lbs. iron bolts, at 4½c per lb.....	45 00
The labor in making said repairs.....	200 00
 Total.....	 \$525 20

In conclusion, Sir, I desire to say, that it is gratifying to be able to state that the business of the canal has not been interrupted or delayed during the past season on account of the lock or gates not being in order. And from all that is known at the present time, there will be no repairs needed in the spring, except the usual fitting up, painting, etc., of the lock gates.

Respectfully submitted.

GUY H. CARLETON,
Superintendent.

ANNUAL REPORT
OF THE
ATTORNEY GENERAL
OF THE
STATE OF MICHIGAN,
FOR THE YEAR 1871.

BY AUTHORITY.

LANSING:
W. S. GEORGE & CO., STATE PRINTERS AND BINDERS.
1871.

REPORT.

ATTORNEY GENERAL'S OFFICE, }
Lansing, January 15, 1872. }

TO HIS EXCELLENCY, HENRY P. BALDWIN,
Governor of the State of Michigan :

I have the honor herewith to submit my official report for the year 1871.

At the January term of the Supreme Court, 1870, the case of John Defoe, plaintiff in error, against The People, defendants in error, was argued by my clerk, W. N. Brown, Esq., and submitted. Defoe was charged in the Eaton Circuit with an assault with intent to commit rape. He was convicted of the assault. He alleged errors in the charge of the Court, and refusals to charge as requested. The Supreme Court found error in the charge, and awarded a new trial.

At the same term, the case of Edward S. Geary, plaintiff in error, against The People, defendants in error, was argued by W. N. Brown, Esq., and submitted. Geary was charged in the Eaton Circuit with an assault with intent to commit rape. He was convicted of the assault. He alleged errors in the charge, and refusals to charge. The Supreme Court reversed the judgment and ordered a new trial.

At the same term, the case of John Foley, Frederick Fleming, and Dennis Corkey, plaintiffs in error, against The People, defendants in error, was argued and submitted. They were charged with the crime of robbery, in the Recorder's Court of the city of Detroit, and convicted. The Supreme Court affirmed the judgment.

At the same term, the case of Michael Nolan, William Rogers, and Peter Nicaise, plaintiffs in error, against The People, defendants in error, was disposed of. The plaintiffs in error were charged with the crime of burglary, in the Recorder's Court of the city of Detroit. The Supreme Court found no error in the record.

At the April term of the Supreme Court, the case of Henry Stewart, plaintiff in error, against The People, defendants in error, was argued and submitted. The plaintiff in error was charged, in the Bay Circuit, with the crime of burglary, and was convicted. There were several errors alleged, and the Supreme Court reversed the judgment, on the ground that the Circuit Judge refused the defendant the right to poll the jury.

At the same term, the case of Sherburn Gaige, plaintiff in error, against The People, defendants in error, was submitted and the judgment reversed. The defendant was charged in the Hillsdale Circuit, under section 5790, compiled laws, with willfully injuring a mill-dam.

At the same term, the case of Howard C. Bristol, plaintiff in error, against The People, defendants in error, was submitted. Bristol was charged in the St. Clair Circuit with the crime of taking or enticing away from the lawful custody of her parents, a female child under the age of sixteen years, without her consent, and against the wishes of her parents, for the purpose of marriage, concubinage, or prostitution. The defendant was convicted, and the Supreme Court found no error in the record, and affirmed the judgment.

In my last report, the case of The People vs. Henry Johr and his sureties is referred to as having, by the rulings of the Circuit Judge, been decided against The People. Believing these rulings to be erroneous, I caused a bill of exceptions to be settled, and the errors alleged were argued and submitted at the April term. The Supreme Court sustained my view of the law, reversed the judgment, and ordered a new trial.

After the case was remitted to the Circuit, the Judge permitted the defendants to amend their pleadings by filing an affidavit denying the execution of the bond, and setting up, by the sureties, that when they signed the bond, Johr agreed to procure other names to the bond, and was not to deliver it until such names were signed to the bond.

The decision of the Supreme Court in *Bay City vs. McCormick*, decided at the October term, effectually disposed of this last dodge. The case was noticed for trial at the May term of the Circuit, to be held at Port Huron, but owing to the uncertainty as to where the county seat of St. Clair county really was, the notice was countermanded. It was noticed for trial at the September term, when the Court permitted the defendants to amend their plea as above stated, and the case went over the term.

It was again noticed for trial for the December term, when the defendant sureties moved for a continuance, upon the ground that Johr was sick, and that they expected to prove by him that the bond was never delivered to the State by the defendants, and that it was surreptitiously taken and delivered to the Auditor General. This showing was deemed sufficient by the Circuit Judge, and the cause was continued. I am in hopes that the case may be disposed of during the year; and yet, judging from the past, it is difficult to foresee what new phase human ingenuity may assume to delay the payment of an honest liability.

At the July term I recovered a judgment of ouster against the *Ætna Live Stock, Fire, and Tornado Insurance Company* of Oxford, Oakland county, upon an information in the nature of a *quo warranto*, filed for that purpose. The corporation, by the judgment of the Court, was ousted and altogether excluded from exercising any of the corporate rights, privileges, and franchises of an insurance company under the laws of this State, and the said company was dissolved.

At the same term, the case of *William Schweitzer*, plaintiff

in error, against The People, defendants in error, was argued and submitted. The defendant was charged, in the Recorder's Court of Detroit, with the crime of larceny. The Supreme Court reversed the judgment because of the admission of improper evidence, and sent the case back for a new trial.

At this term the Supreme Court settled the county-seat question of St. Clair county, and determined that the action of the people and the board of supervisors in locating it at Port Huron was legal.

At the April term, Joseph Trombly of Bay City applied for an order on the Auditor General to show cause why a writ of mandamus should not issue to compel him to draw his warrant on the Treasury of the State for the sum of \$6,722.50, which the relator claimed to be his due from the State under and by virtue of Act No. 119, laws of 1867, as amended by Act No. 15, laws of 1869.

These acts attempted to authorize the Governor of the State to seize and procure the condemnation of lands to be used by the United States for light-house purposes. The United States, being desirous to erect light-houses at the mouth of the Saginaw river, and not being able to purchase of the owners, applied to the Governor, under the above acts, to appoint a commission to seize and condemn them. The Governor appointed a commission of three gentlemen, who heard the proofs of the relator and the other parties who had an interest in the land. It was an *ex parte* proceeding, and neither the State nor the United States had any notice of the same. Under the proofs submitted, the commissioners awarded the sum of \$17,496.84 for less than twelve acres of land, and which land was not only covered with water, but the United States had refused to give the owners for the same the sum of \$2,500.

The above statutes were so carelessly framed that the relator seemed to have a legal claim against the State, notwithstanding the United States absolutely refused to take the land at the price fixed by the commissioners.

At the October term the Auditor General showed cause, and the questions involved were argued by myself and Hon. Geo. V. N. Lothrop on behalf of the State. The Court decided that the State had no power to authorize the condemnation of lands except for its own use, or that of its citizens, and therefore held said acts of the Legislature unconstitutional and void.

At the same term, the case of Joseph J. Strang, plaintiff in error, against The People, defendants in error, was argued and submitted. Strang was charged, in the Hillsdale Circuit, with the crime of rape, and was convicted and sentenced. He took the case to the Supreme Court on bill of exceptions, and alleged fifty-three errors. The Supreme Court failed to discover any error in the record, and affirmed the judgment.

At the same term, the case of Samuel and Abraham Williams, plaintiffs in error, against The People, defendants in error, was argued and submitted. Plaintiffs in error were charged, in the Recorder's Court of Detroit, with the crime of grand larceny, and were convicted. The proof disclosed the fact that the larceny was committed in New Orleans, and that the stolen money was brought into this State. This raised the same question involved in *Morressy vs. The People*, 11 Mich., 327. The Recorder held section 5797, Com. Laws, constitutional. The Court, Judge Campbell dissenting, affirmed the judgment of the Recorder in holding the statute constitutional, but reversed the judgment, because of the admission of improper testimony.

At the same term, the case of John M. Jones against The People was argued and submitted. This was a case made from Lapeer Circuit. Jones was charged with, and convicted of, an attempt to commit the crime of arson, with intent to defraud an insurance company. The decision of the Supreme Court was rendered at the January term, 1872, and will be found in my next report.

At the same term, the case of Charles Merrill, complainant,

against the Auditor General and Rufus R. Morris, County Treasurer of Osceola county, defendants, was brought to a hearing. The case was commenced in the Circuit Court for the county of Osceola in chancery, by Merrill. On filing his bill, an injunction was issued to prevent the sale of the lands described therein for the taxes assessed for the year 1869. He alleged in his bill that he was a non-resident, and owned lands in several townships in the county, and that the supervisors of such townships fraudulently assessed them above their value, and relatively very much beyond the assessment of other property adjoining and of equal value, for the purpose of relieving resident tax-payers from their proportion of the taxes. The defendants demurred to the bill for want of equity. I argued the demurrer in the Circuit Court, and the Court overruled the demurrer and decreed a perpetual injunction against the collection of the tax. An appeal was taken to the Supreme Court. The Court dismissed the bill with costs of both courts to the defendants. As the decision is one of considerable practical importance, I append an abstract of it, prepared by the Judge who delivered the opinion :

1. If the supervisor of a township, in making the assessment of property for taxation, shall fraudulently, and with a view to impose upon an individual more than his just proportion of the public burden of taxation, assess the property of such individual above its value, and relatively above the other assessments on his roll, the party aggrieved may have an injunction to restrain the collection of the excessive tax.

2. A property-owner seeking to enjoin the collection of taxes on the ground that the amount is excessive, should show by his bill, as near as may be practicable, what amount is just, and what excessive, and he should pay to the proper officer the amount which he concedes to be properly chargeable against him. In the case of a personal tax, a preliminary injunction should not be awarded in such case, except upon the terms that the whole amount in dispute be paid into

court, or proper security given for its ultimate payment if it shall be decreed by the Court; and in any other case, the officer allowing an injunction has a discretion to require such security, which it may sometimes be proper he should exercise.

He who seeks equity must do equity; and he who seeks to enjoin the collection of an excessive tax, must be required, as a condition of relief, to pay such amount as is just.

3. Where, therefore, a bill was filed to restrain the collection of an excessive tax, and the Court found the tax to be excessive, and thereupon made a decree perpetually enjoining the collection not only of the amount that was excessive, but of the whole tax, it was held that the decree was wholly unwarranted, and it was thereupon reversed.

In my last report the case of *The People vs. George W. Brown* and sureties, is referred to. By an arrangement between the parties, this case was taken out of court and submitted to three arbitrators, viz: Hon. Daniel Striker, Hon. V. P. Collier, and Hon. Chas. A. Edmonds. I appeared for the State and submitted such proofs as were at my command, which consisted principally of the files and records of the Canal Board. After the proofs were closed on both sides the arbitrators took time for deliberation, and after a careful review of all the evidence offered, and a thorough examination of the files and records of the Canal Board, came to the conclusion that Brown is not indebted to the State on account of the making of said bond.

At the November term of the Circuit Court in chancery for the county of Genesee, I moved the case of *The People*, complainants, against George M. Dewey, Ellen Dewey, Edmund H. Hazelton, Clarinda B. Hazelton, George H. Hazelton, and George Bliss, defendants, to a final hearing on pleadings and proofs, and obtained a decree for the sum of \$93,142.66. Defendant Bliss was a prior mortgagee, in no way connected with the transaction, and could be in no way affected by the result.

By joint resolution No. 33, laws of 1869, the claim of the State against George M. Dewey was referred to the Board of State Auditors, with power to settle with him, and take lands for the balance of the principal then due, at a reasonable price, if they should deem it for the best interests of the State so to do. Acting under the power thus conferred by the Legislature, the Board of State Auditors made a settlement with said Dewey, he paying in money and lands the balance due on the \$50,000 principal, and directed me to execute the proper discharge. After said decree was entered, I executed to said Dewey a discharge from the same, and placed it on file in the cause.

The original mortgage was made January 4, 1860, for the payment of \$50,000, and executed by Geo. M. Dewey, Edmund H. Hazelton, and Clarinda B. Hazelton, his wife. Since the execution thereof, Edmund H. and George H. Hazelton have each gone through bankruptcy, and certified copies of their discharge have been on file in said cause for several months past. The State authorities were duly notified of the pendency of such proceedings, and declined to present any claim to the commissioners on behalf of the State, preferring to retain the lien which the mortgage secured.

Hence, under the bankrupt laws, the State could only rely upon the land in the mortgage to make the money due from Edmund H. Hazelton to the State. No personal decree, therefore, was taken against him, and none could be against George H. Hazelton, as he had never signed the mortgage.

Edmund H. Hazelton having become possessed of the title of his assignee to all the lands transferred to him, and which were included in the mortgage, I arranged with him to take a quit-claim deed to the State of all the lands covered by the mortgage, and also eighty acres in Hillsdale county not included in it, except what was known as the "Hazelton homestead," situated in the city of Flint, and two or three other descriptions which were contracted at the time of the

execution of the mortgage, and which were exempted from its operation. There was a mortgage upon the "homestead" at the time the mortgage was given to the State, which was regularly foreclosed by advertisement, and the time for redemption expired several years since. It will thus be seen that the State gets all the title Hazelton had to the lands in January, 1860, and all it could get if sold on the decree and bid in by it. There are in round numbers some 3300 acres covered by the deed, many descriptions of which are valuable for their timber, and others are reputed good farming lands. If put up at a forced sale the result would be that the State must bid them in, or they would be sold at a great sacrifice. I am firm in the conviction that in the end the State will not only realize the principal, but a large proportion, if not all, of the interest of this claim.

At all events, I am happy to congratulate you that this old and hackneyed claim is settled and closed, and will no longer haunt Executives and Legislatures, nor trouble my successors.

There have been, during the year, the usual number of suits commenced to enjoin the collection of taxes, and I have in each case sent the papers to the Prosecuting Attorney of the county to examine into the facts, and defend, when a defense would be of any avail.

There has been no falling off in the official correspondence of this office. It seems to be supposed by many that the Attorney General has not only the power, but is in duty bound, by virtue of his office, to settle, by an opinion, every controversy, real or imaginary, that may arise in the community. And it not unfrequently happens that his opinion is sought in matters purely civil, and in which the State has no concern. In many instances parties have agreed upon the facts, and constituted him an umpire to settle the law. The result is that very much time is consumed in looking up the law and writing opinions.

The several Prosecuting Attorneys of the State have given

no occasion to suspect a want of zeal and ability in defending the interests of their respective counties. It has, however, come to my notice that in one or two instances they have permitted themselves to be retained and to be actively employed in procuring injunctions against the Auditor General and the County Treasurers to prevent the collection of taxes. This practice is in violation of positive law. I trust this suggestion will be sufficient to induce a change in that particular, and that it may not be necessary to name the persons offending.

By a change in the law, the reports of the several Prosecuting Attorneys are not to be made until the 31st day of December of each year. By this change it was hoped that we might approximate very nearly to the sum total of criminal business in the State in each year.

Blanks were early transmitted to all the Prosecuting Attorneys in the State upon which to make their reports to this office. No reports have been received from the counties of Chippewa, Mackinac, and Manitou. I have not been able to find any report from Chippewa county since it elected a Prosecuting Attorney. There is no excuse for this negligence. The statute (Sec. 397, Com. Laws) provides a penalty for such neglect. It also provides (Sec. 478) for the removal, by the Governor, of such county officers who have been guilty of willful or habitual neglect of duty.

Herewith find abstracts of such reports as have been received.

Yours respectfully,

DWIGHT MAY,

Attorney General.
